**Monthly Revenue/Expenditure Summary Report Overview
January 2007**

Revenues

Overall our revenues are in line with the prior year's experience. There are some areas that reflect a wider variance from the prior year which are due to timing of revenues being released from the State and Federal agencies, along with larger PEP grant awards than previous years in the miscellaneous revenue area. The variance in the interest earnings is due to overly conservative budgeting.

Expenditures

Overall our expenditures are the same as the prior year's experience. There are some areas that reflect a wider variance from the prior year. This is due primarily to the timing of payments being made to vendors as projects progressed through the summer and to the timing of special education tuition billings being paid.

Date: February 26, 2007
Title: Disposal of Surplus Property
Contact: Phyllis A. Hanna

Background: When the District identifies equipment that is no longer needed or usable for school purposes, the School Code requires that the Board of Education approve the disposition of this school property.

Discussion: Attached is a list of equipment that has been deemed unusable for District purposes or in disrepair, and that needs to be disposed of. Most of the items on the items on this list are obsolete equipment that was removed from classrooms and replaced with new equipment. Functional spare parts have been removed from the obsolete equipment and stored in our Technology closet.

Recommendation: The Administration recommends that the Board of Education adopt the resolution approving the disposition of school property as indicated above.

Key Objective: Provide resources – people, time and money – to ensure the growth and development of our vision.
